SPEAKING TOPICS:

Roadmap to Success

If education, hard work, passion and being fabulous at what you do were enough, then most entrepreneurs would easily cross the 7 figure mark and thrive. However very few profit in the first year, and unfortunately, even more fail and close their doors within 2 years. Learn what corporations do differently to create a long-lasting profitable business.

Status Quo Disruption

Break Free of the Beliefs That Limit Your Potential! It is not where you come from but where you’re headed and the people you connect with. Discover how to give yourself permission to build a thriving business and start charging what you are worth, not what you think people will pay.
